BINGO Player Instructions

   b. one for the ZOOM room where the game or letter/number combinations will be called out.

2. **BINGO Zoom Room**:

3. Any time on Sunday 10/18 before 3:45p, click the URL for the Bingo game (to be provided closer to date) to activate your bingo cards (14 cards for 14 games and prizes!!).

This will bring you to a page asking for your name when you are a new player. Enter it and click "**Join Game**"
   a. A player code will be given.
          i. Be sure to save or write down this code so you can access your bingo cards if you close the page.
          ii. If you do close the page, click the same link sent out in the email and under the "Returning players" section, enter your player code.

4. Click "**Play Now**"

5. This will bring you to your bingo card(s). You will be able to see your card number, which may be needed if (or when) you win BINGO.

6. Mark your cards virtually on the browser by clicking each letter-number combination as called out by our faculty bingo callers.
   a. You can also print the card if you wish.

7. When you believe you have bingo, call it out in the zoom call. Your card will be verified.

8. When a game is restarted, hit "Reset" above your card to clear it for the new game and your next card.

Good luck!!
